

AGMASOL PS & AGMASOL PS LEMON – HIGH FLASH-POINT SOLVENT CLEANERS

THE ORIGINAL AGMASOL PS IS ODOURLESS WHILE AGMASOL PS LEMON OFFERS A PLEASANT LEMON SCENTED ALTERNATIVE WHICH FUNCTIONS AS AGMASOL PS.

WHAT AGMASOL PS DOES

AGMASOL PS IS A HIGHLY REFINED HYDROCARBON BASE SOLVENT, SPECIFICALLY DEVELOPED FOR TANK DEGREASING AT AMBIENT TEMPERATURE. IT MAY ALSO BE USED FOR ODOURLESS WIPE OR SPRAY CLEANING OF PRODUCTION LINES.

AGMASOL PS IS INTENDED TO REPLACE SOLVENTS LIKE PARAFFIN AND MINERAL SPIRIT WHICH SMELL UNPLEASANT AND CAUSE DISCOMFORT TO WORKERS. THE ODOUR-FREE FEATURE OF AGMASOL PS AND ITS LOW EVAPORATION LOSSES MAKE IT IDEAL FOR LARGE OPEN-DIP OR SOAK-TANK OPERATIONS, MANUAL DEGREASING OF PRODUCTION LINES AND BENCH WORK INVOLVING SPRAY OR WIPE OPERATIONS.

WHERE TO USE AGMASOL PS

AGMASOL PS IS IDEAL FOR USE IN FOOD AND DRINK FACTORIES, IN CONFINED SPACES OR WHEREVER ODOUR CAUSES PROBLEMS.

THE MOST IMPORTANT USES FOR AGMASOL PS ARE AS A TANK DEGREASER AND FOR MANUAL CLEANING OF BENCH WORK OR PRODUCTION LINES. IN THESE APPLICATIONS, AGMASOL PS IS USED AT ROOM TEMPERATURE FOR ODOURLESS AND EFFECTIVE REMOVAL OF GREASES, OILS ASPHALT, ETC.

AGMASOL PS IS SUITABLE FOR USE ON ALL METALS AND PVC.

How to use AGMASOL PS

AGMASOL PS IS IDEALLY SUITED FOR HAND WIPING OR DIRECT SPRAY APPLICATION. SLOW EVAPORATION ENSURES EFFECTIVE CLEANING IN THESE TECHNIQUES OR IN SOAK CLEANING. AGMASOL PS IS NOT WATER-RINSABLE. AIR DRYING MUST BE PERMISSIBLE.
